

# SNOW DAY BINGO CARD

## Discovery Learning

### Maths

- ❖ Draw a snowman with 3 buttons. Can you draw another one with a different number of buttons? Write the numbers on the snowmen.
- ❖ Make a snow cone shop-scoop some snow 'ice cream' into a cup – decorate it with natural objects from outside. How many can you sell? How much does it cost?
- ❖ Make some different sized snowballs. Can you put them in size order?

### English

- ❖ Can you make some marks in the snow? Use your finger or a long paintbrush or other tool- can you make a zig zag? Vertical line? Circle?
- ❖ On a wintery walk, can you spot any objects starting with the sounds we have learnt so far? (s,a,t,p,i,n)
- ❖ Share a book with your grown up- stop half way through, can you guess what might happen next?

### Science

Collect some snow in a pot and bring it inside. What happens to the snow? Watch it and talk to your adult about what happens.

### Creative

Paint the snow! You could either use paints or food colouring!  
What can you create?

### Physical-fine motor

Put some small toys in an ice cube tray or in little plastic bowls- put them in the freezer, wait for them to freeze, then try to 'free' your toy!
